SUMMARY

Full Stack Developer with over 1 year of hands-on experience in developing scalable web applications. Proficient in both frontend backend technologies with a strong grip on the MERN stack, Next.js and NestJS. Skilled in managing database, CI/CD pipelines, DevOps practices, and implementing robust APIs with Swagger documentation.

EDUCATION

Bachelor of Science in Computer Science (IT)

Virtual University of Pakistan

Progress...

EXPERIENCE

Full Stack Developer

Zerovertical Labs — January-2025 – Present

- Designed and developed scalable full-stack web applications using Next.js, Node.js, Express.js, and MongoDB in a Microservices-based architecture.
- Built and maintained RESTful APIs, ensuring secure, performant, and reusable endpoints for multiple frontend consumers.
- Worked on SaaS platform development, implementing multi-tenancy, role-based access control, and subscription models.
- Integrated DevOps practices including logging, monitoring (via tools like grafana/Datadog), and auto-deployment strategies for rapid delivery.

Frontend Developer

BrainyBox Technologies (Dubai – Remote) —Jan 2025 – May 2025

- Contributed to enterprise-level frontend development using React.js, Redux Toolkit (RTK Query), and TypeScript, ensuring high performance and scalability across modules.
- Developed reusable components and complex UI flows integrated with real-time APIs, elevating user experience across dashboards and admin panels.
- Optimized frontend state and data fetching logic with RTK Query, reducing network overhead and improving app responsiveness.
- Collaborated closely with international clients and cross-functional teams through remote meetings (Zoom, Google Meet), often leading sprint planning and requirement-gathering sessions.

SKILLS

FRONTEND

[HTML](#) [CSS](#) [JavaScript](#) [TypeScript](#) [React](#)

[Next.JS](#) [Redux](#) [Bootstrap](#) [React-Native](#)

BACKEND

[Node.JS](#) [Express.JS](#) [Nest.JS](#) [MongoDB](#)

[Postgresql](#) [Prisma](#) [FireBase](#) [SuphaBase](#)

DEVOPS & TOOLS

[Git/GitLab](#) [Docker](#) [SonarQube](#) [CI/CD](#) [Redis](#)

[Grafana](#) [Datadog](#) [Jenkins](#) [Jest](#)

PROJECTS

Qr-gen.com

Engineered a **SaaS application** enabling users to generate and manage **dynamic QR codes** — links can be updated in real time without regenerating the QR code.

Built the frontend using **React.js**, **TypeScript**, and **Tailwind CSS**, ensuring a fast, responsive, and visually modern UI/UX.

Integrated **Redux Toolkit (RTK)** and **RTK Query** for efficient **state management** and **data fetching**, improving performance and scalability across the application.

Developed customizable QR code styling options (color, shape, logo embedding) and implemented download/share functionality.

STRENGTHS

Team Leadership

Proven ability to lead cross-functional development teams, ensuring project milestones are met with high quality and on time.

Communication

Strong verbal and written communication skills, enabling effective collaboration with clients, stakeholders, and remote teams across time zones.
